- I did a complete revamp of the organization's website.
- I started a blog and connected it to the company's website. I made sure to write and publish 2 to 5 blog posts every day.
- I started and completed the setup of Google AdSense on the organizations blog.
- I used various video, graphic editing tools to create media infographics, Visual designs for media production, fliers, and billboards for promotions and advert.
- Assisted in Diagnosing and resolving IT-related issues efficiently in the organization
- I kept comprehensive analytics of the websites, blog, and other social media platforms.
- IT equipment, including computer, laptops, cameras, printers and projectors.
- Diagnosing and resolving software and hardware faults
- I ensured all hardware operates at its optimum level with latest updates and patches.

2017 – 2021
Lagos, Nigeria

Graphics Designer*Lite House Innovation*

This course encouraged the development of ideas through observation and research as well as introducing me to layout and typography; including projects to design a logo, a poster and a magazine spread. This was a good skill to learn immediately after my secondary school while I prepared to get into higher education and pursue a career in Information technology.

01/2010 – 02/2012
Lagos, Nigeria
