

BENEDICT (EBUKA) UMEH

Full-Stack Developer | AI Integration | Web Performance & Analytics

Leeds, UK | +44 7493 363351 | benedict.umeh@stackrise.co.uk | [LinkedIn: linkedin.com/in/ebukaumeh](https://www.linkedin.com/in/ebukaumeh)

PROFESSIONAL SUMMARY

Full-Stack Developer and AI Integrator with 7+ years' experience delivering high-performance web applications and data-driven digital products. Strong in React/TypeScript, Node.js, and modern delivery practices (performance, SEO, analytics, secure deployments). Proven in building client/admin portals, dashboards, and automation-driven experiences that improve conversion and reduce operational workload. MSc Data Science with a practical, outcome-focused engineering style.

CORE SKILLS

Engineering: React, TypeScript, Node.js/Express, PostgreSQL, MongoDB, REST APIs, Webhooks, Git/GitHub, CI/CD, DNS/SSL

AI & Data: OpenAI/Gemini/Claude APIs, function calling/tool use, chatbots, analytics instrumentation, GA4, Power BI, SQL, Python

UX & Frontend: Tailwind CSS, Shadcn UI, Framer Motion, Figma, accessibility (WCAG), mobile-first, i18n

Delivery: stakeholder collaboration, documentation, QA mindset, performance tuning, SEO foundations, GDPR awareness

EXPERIENCE

CTO / Lead Developer — [Stackrise](#) | Leeds, UK | Jun 2025 – Present

- Lead technical delivery for a UK digital consultancy, shipping production-ready web solutions for SMEs and startups.
- Built secure admin/client portals (RBAC, team management, project tracking, support ticketing, document handling).
- Delivered AI-powered assistants using GPT models with structured tool workflows to automate lead capture, scheduling, and CRM-style interactions.
- Implemented Stripe payments, invoice tracking, automated reminders, and transactional email flows.
- Standardised analytics using GA4 and Clarity to improve funnel visibility and conversion decision-making.
- Tech: React, TypeScript, Node.js/Express, PostgreSQL, OpenAI API, Stripe, Tailwind, Shadcn UI, GA4/Clarity

Web & Performance Analyst — [Qalhata Technologies](#) | Cheshire, UK | Nov 2024 – Present

- Owned corporate web presence measurement and reporting; produced GA4 insights and stakeholder-friendly performance updates.
- Built reporting outputs and dashboards to track visibility, engagement, and lead journey performance.
- Tech: GA4, Power BI, analytics reporting, SEO/performance monitoring

Web Developer — [Deskstones Ltd](#) | Leeds, UK | Feb 2024 – Present

- Led website rebuild focused on speed, SEO structure, and conversion uplift through improved UX and tracking.
- Optimised page performance and site structure to strengthen discoverability and user flow.

Web Developer / Analyst — [Eden Health Care Private](#) | Leeds, UK | 2023 – 2024

- Built and maintained healthcare web presence and lightweight internal tools supporting scheduling/admin workflows.
- Improved operational efficiency by reducing manual steps and increasing clarity of reporting views.
- Tech: web tooling, workflow improvement, reporting

SELECTED PROJECTS (PORTFOLIO / CONTRACT / INDEPENDENT)

[Afro Grocers — Multilingual E-commerce Concept Build](#)

- E-commerce build with multilingual support and AI-assisted customer support features.
- Tech: React, TypeScript, Node.js, PostgreSQL, OpenAI Vision/LLM, i18n

[GCA GLOBAL COMPETENCY ASSESSMENT](#)

- Led development of AI-powered global certification platform for professionals across 32 countries.
- **Tech:** React 18, TypeScript, Node.js/Express, PostgreSQL, OpenAI API, Stripe.

[UK VISA ASSISTANT PLATFORM](#)

- Developed an AI-powered SaaS platform guiding applicants through visa processes with compliance workflows.
- Built multi-agent AI system providing guidance across innovation, finance, growth, and compliance areas.
- Implemented tier-based access control, PDF/Word export, Google OAuth, and Stripe payments.
- Tech: React 18, TypeScript, Node.js/Express, PostgreSQL, Drizzle ORM, Google Gemini API, Stripe.

[F-RADAR — Agentic Geospatial Renewable Feasibility Platform](#)

- React/Node/Postgres platform integrating UK public data sources and interactive mapping to support site screening and reporting.
- Tech: React, TypeScript, Node.js, PostgreSQL, OpenAI API, Leaflet/React-Leaflet

[AutoInsight — Hotel Analytics Platform](#)

- KPI-rich hospitality analytics dashboard with AI assistant for insight retrieval and reporting support.
- Tech: React, TypeScript, Node.js, PostgreSQL, Recharts, LLM API

(Credentials for testing purpose only)

Email: emma@demohotel.com

Password: demo1234

AI Virtual Hotel Concierge

- Digital concierge assistant handling high-volume FAQ-style interactions and guided journeys.
- Tech: React, Node.js, MongoDB, LLM API

NHS Procurement Dashboard (Excel/Analytics Portfolio)

- Procurement performance analysis and dashboarding approach (KPIs, segmentation, trends, exceptions).
- Tech: Excel, SQL (where applicable), visual analytics
